Dear Mr Bevan,

Pedestrian, Cycling & Traffic Calming Plan - Paddington-Centennial Park

Attached is our submission for the Pedestrian, Cycling and Traffic Calming Plan – Paddington-Centennial Park. This has been prepared jointly with The Paddington Society.

It is consistent with the City of Sydney's Sustainable Sydney 2030 Part 4 Walking & Cycling and the Cycling Strategy and Action Plan 2007 – 2017.

BIKEast previously forwarded to you and also gave a copy to the Council's consultant, the Bike Safety Audit undertaken for Moore Park and surrounds, in December 2005. This Audit was commissioned as a formal road safety audit by a qualified Level 3 Road Auditor, with the support of BIKEast members. There are significant overlaps with the PC&TC Plan study. Some work has happened to address the findings of the audit, but a significant number of issues remain. BIKEast requests that these remaining issues be considered and addressed during preparation of the Plan, as recommended in our submission.

Also attached to this submission is a short paper entitled 'Every Street a Cycling Street', prepared by a BIKEast member, that is also generally relevant.

Please do not hesitate to contact me if you need further clarification on any aspect of our submission.

Yours sincerely,

Adrian Boss
